Scriptural Citation: \_\_\_\_\_

1. What is the physical problem to be healed? Where did the healing take place?

2. In the healing account, does the author indicate what might be in the "patient's" thought? Can you explain those qualities?

3. What about the environment in which the healing takes place? Any resistance evident from the account? Why and from whom?

4. What rituals, traditions or customs did Jesus break, if any?

5. Can you determine what was in Jesus' thought either from his questions or statements as he confronts the challenge?

6. What specifically did Jesus say or do in order to bring about the healing?
